## 100% Organic Foraging Blends

Bunnies, hamsters and guinea pigs love to forage for food. It's instinctual, fun and good for mental stimulation.

Hay is an essential part of their diet to aid digestion and dental health. Yet, many fur babies will show little interest.

Our foraging blends are made with 100% organic flowers and herbs to add extra tastiness and health benefits to their diet.

Sprinkle forage over their hay and watch the foraging fun!

### Happy Belly Blend:

**Ingredients:** marigold, rosemary, spearmint, dandelion raspberry leaf and chamomile.

**Benefits:** gut health and digestion.

### Calming Blend:

**Ingredients:** Rose petals, chamomile flowers, cornflower, calendula and lavender.
